

The Change from Girlhood to Womanhood—is fraught with dangers. At this period the young woman is especially sensitive, and many nervous troubles, which continue through life, have their origin at this time. If there be pain, headache, or general health not good, the judicious use of medicine should be employed. Doctor Pierce's Favorite Prescription is the best tonic and nerve at this time. The best remedy for those delicate weaknesses and derangements that afflict women-kind at one period or another.

For all women, at all times of life, in all cases of peculiar nature, the "Prescription" is the safe agent that builds up, strengthens, and cures.

In catarrhal inflammation, in chronic disorders and displacements common to women, it is guaranteed to benefit or cure, or the money is refunded.

Dr. Sage's Remedy positively cures Catarrh.

HOGGING IT.

A pair of exceedingly rich men, who are candidates for exceedingly fat offices on the Republican ticket, have become alarmed over the disaffection of the Republican farmers and laboring men, and they have fixed up an elaborate reply, in which several alleged minds figured, to try and neutralize the disaffection by counter charges against some of the Democratic candidates.

To offset the well known fact that Hiram Doll, Republican candidate for sheriff, has robbed in about \$24,000 of the hard earned tax money of the people, during his two terms as county treasurer, the ring has induced the Evening Repository to print a statement that Mr. Gentry, Democratic nominee for sheriff, has also had enough because he has been a letter carrier for the venerable and much patronized Uncle Sam, and also has enjoyed for four years the princely office of City Marshal of Canton, at the magnificent salary of \$60 per month.

It will be remembered that the News-Tribune, several days ago, said that certain Republican farmers in Plain township stated they would not vote for Hiram Doll, because he had had enough. These Republican farmers claimed that Hiram Doll had taken about \$24,000 or \$25,000 out of the taxpayers of Stark county for four years' service, which is more than any farmer in Stark county can make in 100 years, raising wheat, wool, hogs, corn, buckwheat or calves, under the depressing conditions imposed by McKinley. Of course the News-Democrat mentioned this condition of the rural mind against any one man, however deft his hand or bland his smile, hogging all the persimmons.

The mere mention of these circumstances caused great distress in the camp of the common hoggers, and hence the attempt at a counter irritant. But the counter irritant does not irritate worse than a sour persimmon.

Mr. Gentry, the Democratic nominee for sheriff, never held a county office. He never held any office of profit. He never held any office that furnished him any more than the earnings of a wage worker in any skilled industry. Letter carrier, did you say. Ask any of the letter carriers of Canton whether their business is anything but solid drudgery and hard work. No men in the employ of the government earn their wages better than the letter carriers. It is simply official drudgery, with an ordinary wage workers salary. The same can be said of the city marshal's office. The defenders of Mr. Doll will have to try again.

It will not suit the rural hoggers to set up a \$60 per month office, with hard work attached, against a \$500 per month office, on a stuffed leather cushion in the Court House.

The general verdict is that Hiram Doll has had enough; and that a man of the people, a true Democrat in the broadest and best sense of the term, will be a better man to sit in the Probate office than a very rich banker, whose bowels of compassion are always in a constipated condition.

A RECENT dispatch from Washington to the Cincinnati Enquirer shows that in an investigation of the suspended cases in the pension department, a disclosure was made on the part of Republican politicians and the former Republican pension boards, which is thoroughly disreputable. The outrage thus perpetrated for political effect is shown up in the most glaring way when these claimants are ordered before the new pension examination, and in every instance so far it has resulted in being placed back upon the rolls. This shows to what extent Republican officials will go, and how far they will prostitute their office if they can gain a vote for their party. Many of the boards were not changed before July 1, and they continued their practice up to the very hour of their going out of office. But the worst thing of all has been the underhanded methods by the Republican politicians in Ohio and elsewhere, by which they have filed charges and affidavits against their neighbors to have them suspended, in order that a sentiment might be created against the Democratic party. These cases are being investigated rapidly and nothing of the sort will be tolerated by the pension bureau, and anyone who has been suspended are being placed back upon the rolls as rapidly as possible. No soldier need have any fear that injustice will be done him by this Administration.

READ Chairman Dick's letter, published in "Our Impression," and then spot the man who has been making a man who relies upon any agents but noise, show and boodle. Remember that Chairman Dick was made the manager of McKinley's campaign by special request of the Governor. His acts are the Governor's acts. This letter was sent to all the Republican newspapers of Ohio. It doesn't look much like over-confidence. It doesn't look like the old appeals the leaders of the Republican party used to send out to the voters, in the days when the party had some principles. But boodle and boodle only is now the party's only hope. Money to bribe electors is the alpha and omega of the g. o. p. Manufacturers, whose laborers are out of work with starving families, are asked to send in money to McKinley's boodles agents, to degrade and debauch the poor voters of Ohio, and let little innocent children look up into worn faces mothers and ask for bread, and get only a stone. Dick's motto is: Keep the shops shut up until after election, so as to starve laboring men into voting for more of the same kind of protection they are now getting.

WITH 30 years of the war tariff, and with wages going down every time the tariff is raised, how much longer will it take to get wages down to the Chinese level? When McKinley passed his bill, he told the laborers of Canton it would hold up wages, and increase the stipend of the wage worker. Did it do it?

No. Six months after this robber law was enacted, wages were reduced from 10 to 25 per cent in 10,000 manufacturing in the U. S. and nine-tenths of them were in protected manufacturing establishments. But Chairman Dick in his letter, (which was not intended for the eye of labor) lets the cat out of the bag, and the cat has claws. He wants boodle to buy labor, and debauch laborers.

Penalizing and Expensive. Many a woman shrinks from consulting a physician about functional derangements and weakness, and prefers to suffer in silence. She is and is not, and her neglect of her ailments will prove expensive. It may cost her her life. One of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription. It is a remedy for women's peculiar weakness and ailments, sold by druggists under a positive guarantee from the manufacturer, that it will give satisfaction in every case or money refunded.

For all forms of nasal catarrh where there is dryness of the nasal passages, there is a remedy in the form of a spray, especially when going to bed, Ely's Cream Balm gives immediate relief. Its benefit to me has been priceless.—A. G. Case, M. D., Milford, Mass.

One of my children had a very bad discharge from her nose. Two physicians prescribed, but without benefit. We tried Ely's Cream Balm, and in a few days the discharge was a marked improvement. We continued using the Balm and in a short time the discharge was cured.—O. A. Cary, Corning, N. Y.

HARVEY J. ECKLEY, STAND UP!

You are the Republican candidate for State Senator in the Stark-Carroll district, and are charged with being somewhat treacherous and disloyal to your party. Would you, therefore, object to answering the following questions along with me over your own signature, and not have some one else put in a deny them for you?

1. Did you resign the position of chairman of the Republican Central Committee of Carroll county, in order to help defeat a one-armed soldier for Probate Judge, who was duly nominated? And did you vote for and help elect his Democratic opponent?

2. Did you, at the same time, vote against the Republican nominee for County Commissioner (second term), and help elect his Democratic opponent?

3. Did you ever vote for Wm. McKinley, Jr., for Congress?

4. Did you not oppose Mr. Foraker's candidacy for U. S. Senator, knowing that he was the soldier's favorite?

5. After swearing the foregoing, please state why you did not force the coal weighing bill to a passage before the last legislature? And also state whether you are not opposed to the "foreign element" in America?

A CONSTITUENT.

Just think of it.—Thousands of men out of work in Ohio. Tens of thousands of little innocent children suffering for bread and clothing. In the midst of this all-prevailing distress the agent of our Governor asks for alms.

To help the needy?

No! He wants boodle to debauch and disgrace the unfortunate poor, and let the children continue to starve.

If some houses are built to feed the starving poor, in this God favored and bounteous land, after thirty years of Protection politics, the devil will get the country, unless the champion of Protection can get the boodle to buy an \$8,000 office. So seems to argue Chairman Dick in his boodle letter.

Vote the Democratic ticket.

THE office of Prosecuting Attorney is an important one, and the age of the duties, the peace and best interest of the county is largely concerned. The Democratic party presents a candidate, whom those who know him best, say is entirely competent and worthy of the position. He is a young gentleman of sound character and integrity. He is a native of this county, where he has an excellent practice, and has had charge of many important cases. His appearance and manner, as well as his reputation, and the class of practice he has had, indicates that he is a gentleman of high character and integrity. The voters can make no mistake in electing Mr. Pomerene Prosecuting Attorney of Stark county.—Massillonian.

THAT stalwart Republican paper, the Dayton Journal, seems to be out of all patience with the Republican blowhards. It says: "If the Republican blatherers who are gabbling about 50,000 majority for McKinley don't shut their real mouths, and stop their ranting, they will make a vast deal of harm to the whole campaign. There is nothing more dangerous than false security. McKinley will not get 50,000 majority. Stop your preposterous wind!" The latest reports from all parts of Ohio indicate grave doubt whether McKinley will even get a plurality. So well informed politicians in the Republican party expect a majority. He is liable, as public opinion is now drifting, to get a small-sized minority.

THE United States Senate seems to be the last entrenchment for the defense of silver. The conflict going on there is not for the defense of the Sherman law, but for the sake of silver, and the money of the common people throughout the world, are standing together, hoping and expecting that some compromise will be agreed upon, by which silver may continue to be coined till the question may be brought before the people for full consideration and final action.—Cleveland Plain Dealer.

In a conversation on Wednesday which Matt Early had with the Critic editor, the only things he cited as his objections to Scanlon, as the Democratic candidate for county commissioner, was first, that he (Scanlon) was a member of a church which he (Early) did not like. Judging from the blustering and sulphurous odor which were given off by the atmosphere surrounding Matt, while he was rolling out his torrent of profanity, one would naturally suppose that Matt Early's criticism on any man's church relations ought to be recognized as of remarkable force (?)—Alliance Critic.

W. Z. McDONALD, now in jail, would do well to make an affidavit, telling what he did with that \$4,000 he stole from the state. He has stated that it went into the Republican campaign fund. If so, Chairman Dick probably spent it for votes, as there are great opportunities in that line of business, according to a confidential letter that Chairman Dick wrote to one of our best Republican friends in Canton. Now, is it justice to put McDonald in jail and allow Dick to escape?

ACCORDING to Chairman Dick the opportunities for boodles are very numerous this year. The policy of Dick is to keep all the highly protected shops he can control shut up, so as to make boodle methods more easily worked, and thus increase the opportunities of the situation. Wonder if there is yet a lot or more about depth of political degradation than this. If so, it must be beyond the Stygian river.

Collision on the Ft. Wayne.

Freight train 82 and 70 collided on an open switch Saturday afternoon on the Ft. Wayne railway near Shreve. Both engines were badly damaged but the freight cars remained on the track. Fireman Fred Corbin No. 70 was instantly killed; Pat Sexton, fireman on No. 82 had a bolt driven completely through his left foot and his right leg sustained a compound fracture. Sexton was brought to the city and placed in the Autumn hospital under the care of Dr. S. B. Post. He is improving today, though suffering much pain.

M'KINLEY IN TOLEDO.

From the Toledo News, (Ind.)

So far as making votes for Governor McKinley among intelligent people is concerned, the meeting was a failure. Making due allowance for circumstances (noted elsewhere) that were against him, he made very bad use of the advantages he had.

Governor McKinley, your struggle is vain. You may fool some of the people all the time and all the people some of the time, but you cannot fool even a majority of the people all the time. You have been weighed and found wanting. Your pretended protection is a sham and a fraud. The people are educated beyond it. They have turned their backs to it and faced the east. Suppose, Governor McKinley, you should be able to fool the voters of Ohio into electing you, and suppose further you should secure the coveted prize of Presidential nomination in '96, what will it avail you? You will prove the evil genius of your party. You will lead it to ignoble and everlasting defeat. The popular majority recorded against your bid in '92 will be increased in '96. The great leaders of your party have no confidence in your bid. They have no confidence in you, because they know that no man is ever sound on his own hobby.

GIVE PHYSIC TO THE DOGS, WE WANT PROTECTION.

EAST LIVERPOOL, O., October 15.—Governor William McKinley will address the idle workmen of this city Monday evening and delegations from all around within twenty-five miles will be here. An old-time torch light procession will take place. The meeting promises to be the largest the city ever had and great interest and enthusiasm already exists.

The above appears as a special to the Cleveland Leader of Oct. 16. Now, to those who know the Major, it seems a remarkable exhibition of gall for him to talk to idle workmen in one of the most highly protected industries in the United States, when the law that has reduced the wages of workmen from 10 to 25 per cent in over 10,000 protected industries in the United States, was the odious measure known as the McKinley bill.

But then, a man who produced Carnegie and Frick, and Commodore and the Pinkerton, certainly has the inventive genius to invent a plausible excuse for the idleness, wretchedness and waste that his odious law has wreaked upon labor everywhere.

Humbag has become the potent helper of Protection everywhere, and not out of work and out of bread are ready to catch at almost anything.

Having been fed on humbug and wind pudding for the past 25 years, with wages steadily declining, with every additional tariff burden dubbed Protection, the idle workmen who have not yet degenerated into tramps, will doubtless enjoy the prospect of another dose of the same old debilitating physic.

BRIBERY RECOGNIZED AS A NECESSARY ELEMENT OF M'KINLEYISM.

There was a time in the history of the Republican party when indecent political methods would have been considered by the Republican press, but that time appears to have passed away, and bribery and scoundrelism are now recognized as legitimate campaign methods by the venal press.

Take the letter of the boodle Chairman Dick, asking for money to elect McKinley. With the exception of Dudley's "blocks of fire" letter in Indiana, 1888, nothing has appeared of recent years more venal or more vile. And yet the organs of the g. o. p. are approving it, as a legitimate campaign document.

The Alliance Review publishes it, with the following editorial endorsement:

"We are willing to take the News-Democrat's copy as correct. Now, what of it? It takes a great deal of money to cover the legitimate expenses of a campaign in the great state of Ohio. This money is used to pay for rents, livery hire and car fare of speakers, bands, printing bills, books and pamphlets for the enlightenment of the people, polling books, etc. It is entirely right and proper that Chairman Dick should appeal for financial aid in carrying on a campaign that has for its object the triumph of the Republican party, because, he says, such a triumph will help to restore public confidence and business prosperity, and the greater the victory the greater the influence in this direction."

Vote for decent political methods. Vote for honest men of clean politics. Vote for Neat. Vote the whole Democratic ticket.

FIXING THE RESPONSIBILITY WHERE IT BELONGS.

From the Cleveland Plain Dealer.

McKinley ought not to say that these are "Democratic hard times." The truth is that he should say these are "McKinley times." The Major's bill has been a law for two and a half years and yet Major McKinley was the first prominent man to get caught in the rebound of his prediction of "good times." His argument, caused by endorsing people who expected to make money out of the supposed good effects of the McKinley law, was the first one of prominence in Ohio. Then followed that of Charles Foster, Harrison's secretary of the treasury. His bad debts were not made in Democratic days. Oh, no! McKinley's law caught Charles in its web and down he came. The failure of these two great Republican financiers was caused by having faith in the McKinley bill. The monetary stringency in the country is due to McKinleyism.

THIS IS THE WAY IT WORKS.

From the Akron Democrat.

Hon. M. D. Harter is a Democrat, and don't want McKinley elected. His big agricultural machine works in Mansfield and is run by a Democrat, and time and no reduction of wages. In Akron, the owners of the agricultural machine shops are Republican politicians (most of them), and they do want McKinley elected. Their shops are shut down, and a reduction of wages is announced to take effect when they do start up.

A CELEBRATED lawyer said that the three most troublesome clients he ever had were a young lady who wanted to be married, a married woman who wanted a divorce, and an old maid who didn't know what she wanted.
